BE A SAFE DRIVER

FIFTY-FIFTY ON THE AVENUE

BY DAVID VAN SCHAAK

All accidents are not caused by speeding. Many a careful driver has been unable to avoid striking a pedestrian who walked out from between parked cars, or from behind a car going in the opposite direction.

There isn't a motorist who doesn't suffer from palpitation of the heart at the daily foolishness displayed by some people in crossing the streets. If you belong to the pedestrian class, have a heart; show some consideration for the motorist. The motorist has the greater responsibility. The careless pedestrian is not likey to hurt anyone but himself, white the motorista hs in hand

a potential instrument of destruction. When you

are driving, show the pedestrian the same consideration you would expect if you were in his place. Street safety is largely a matter of mutual courtesy between motorists and pedestrians. Remember the standard rule: "Look to the left before you start to cross the stret; when you reach the center look to the right; when you are in a critical position, don't lose your head." Move

briskly, but if caught in the traffic, the safest thing to do is to stand still. It you remain in one spot, the driver can turn out to avoid you; if you hesitate or dodge, he doesn't know what you are going

A reader, asking this question, says in his letter to the editor: "I gather, from movies and fiction and news stories, that the most admirable traits or qualities in a man are bravery, brains, honor and loyalty. Please write about the most desirable characteristics of a woman. What must she possess to be an ideal sweetheart and wife?"

Every woman gives a lot of thought to this problem. The great philosophers have pondered it.

Pooling authorities: The most attractive and desirable qualities in a woman are modesty, love, beauty, loyalty, poise, reserve, companionship, personal magnetism-and mystery.

Mon, courting women for their future wives and mothers of their children, instinctively seek, first of all, love, modesty, companionship and loyalty.

Beauty is the biological lure. But isn't its influence usnally over-rated? Consider the multitude of men who are quite contented to pass up the beauties and marry women only mod-

Of course, for the homeliest woman in the world, there's some man who'll consider her the most attractive. Yes, love is

Handsome men frequently marry homely women. Brilliant men often marry women with very little brains. Practical women marry impractical men. Beauties mate with commonplace males. Tall women with short husbands. Tall husbands with short wives. Good marries bad. Small wonder, love baffles the philosophers.

In the last analysis, all this contradictory state of affairs is merely nature evening things up-restoring the balance between the sexes-preventing the race from veering too far from the normal or average of appearances, mentality, emotion and Character.

It is a recognized fact that hot medicinal herb tea is one of the very best home remedies to use to assist in breaking up colds, which, when neglected, often develop into influenza, pneumonia or other serious sickness. It is old-fashioned, of course, but, nevertheless, its effectiveness is readily admitted everywhere today,

Free-cuty several men come upon the scene and he is blindfolded and taken to a part of London strange to him.

NOW GO ON WITH THE STORY

The room was entirely bare; nothing whatever hung on the dirty walle. In the middle stood a long table, surrounded with chairs, on most of which sat a man; most of the company were smoking; one or two had before them a glass containing some liquor. At the head sat a very young PIGH With dark eyes, who turned out later to be an Italian. Evidently he $\pi_{38} \propto tog$ as chairman, for as we came in, and with our guards set down, to stord up to welcome us: "We are glad to see you, comrades," said the you g man. Hear! Hear!" said several voices, and I thought: "Anarchists!" There was a little desultory conversation now; much of the talk was in tithan and German. The Italian I did not understand, but scraps of contwo ation from the Germans filled me with horror and excitement; "Of desirable feature. This is a good to are it was his own fault. "Yes, comrade." He turned to us: "No. 5, and No. 9. Which is which, please?"

11 am No 5," said the lady.
"You're No. 9?" said the chairman. 'Yes" I said in a faint voice.

Hereupon the chairman began a short speech, which at first I folewed, and with which by degrees I grew bored, as he recited the oldishioned anarchist and nihilist sentiments of Bakunin, Czolgosz and Luc-Cherry Bayeling his hair, his eyes flashing, he whipped the enthusiasm of his hearers by denunciations of the power, and threats of vengeance by

It has been arranged, as you 14, that the removal is to be done this time by the F. Committee, two (I whose delegates are with us now. For a little while, Sally, I did not know what to do. I am quite sure that Dick is in love with this moving picture actress who seems to fascinate all men.

Of course I am too proud to keep him if he be in love with another woman. Because of a foolish vanity on my part I suppose I want to dismiss him in my own way and at niv own time. At least I do not want to go to Chicago to be compared with Paula Perier. I am sure that Dick will think it is because I do not want to meet her and will put it down to jealousy, but I will have to risk being misunderstood.

Men hardly ever understand the feelings of a woman toward "the other woman." I have come to think, sally, that when a man gets to the point where he wants to be off with the old love and on with the new, most women are perfectly willing to let him go, provided they can do so without shattering their pride. But you see, both the man 4613. The slight fulness over the and the woman in the case want to make the world feel that he or she is the one who is tired.

CORN CONTINUES UPWARD MOVE

Scantiness of Receipts Again Chief Bullish Factor

WEATHER REPORT ALSO AIDS

Gains in Prices of Wheat and Oats Scored

CHICAGO. - (Associated Press.)

-Fresh upturns in the price of corn resulted early today from continued scantiness of receipts and from forcasts of snother cold vave Practically no corn was booked by Chicago dealers on overnight bids to the coury and the majority of handiers said they had obtained no offers. On the other hand, bears contended that banks which had loaned funds to enable producers to hold back grain might soon be pressing for repayment The opening which ranged from 1-8 to 3-8c higher, May 83-4 to 787-8 was followed by a slight reaction and then by a rise

somewhat higher than before Wheat and oats were firmer in sympathy with corn. At the open ing 1-8 lower to I S and 1 4 higher May 1.051-8 to 1 081-4 and July 1 06 1-2 to 1 06 7-5, wheat scored a little advance all around Oats started 1-8 to 1-4c algher

May 46 5-8, and later held near to the initial range to lift the provision market.
